Specifications are subject to change without prior notice.

## NOTES FOR USING THIS PARTS REFERENCE LIST

1. In the case of ordering parts, it needs mentioning the following items:
   (1) Code
   (2) Q' ty
   (3) Description
   Note: No orders without Parts Code or Tool No. can be accepted.

[Example]

| REF.NO. | (1) CODE | (2) Q' TY | (3) DESCRIPTION | RECOMMEND | REMARKS |
|---|---|---|---|---|---|
| | | | | | |

2. Design-changed parts:
   When the parts are changed, any one of the following symbols is mentioned in the REMARKS column.
   CNG(cng) : The part is changed to a new part.
   ADD(add) : The part is newly added.
   DEL(del) : The part is deleted.
   Symbol in capital letters indicates that the change is the latest one in the page.

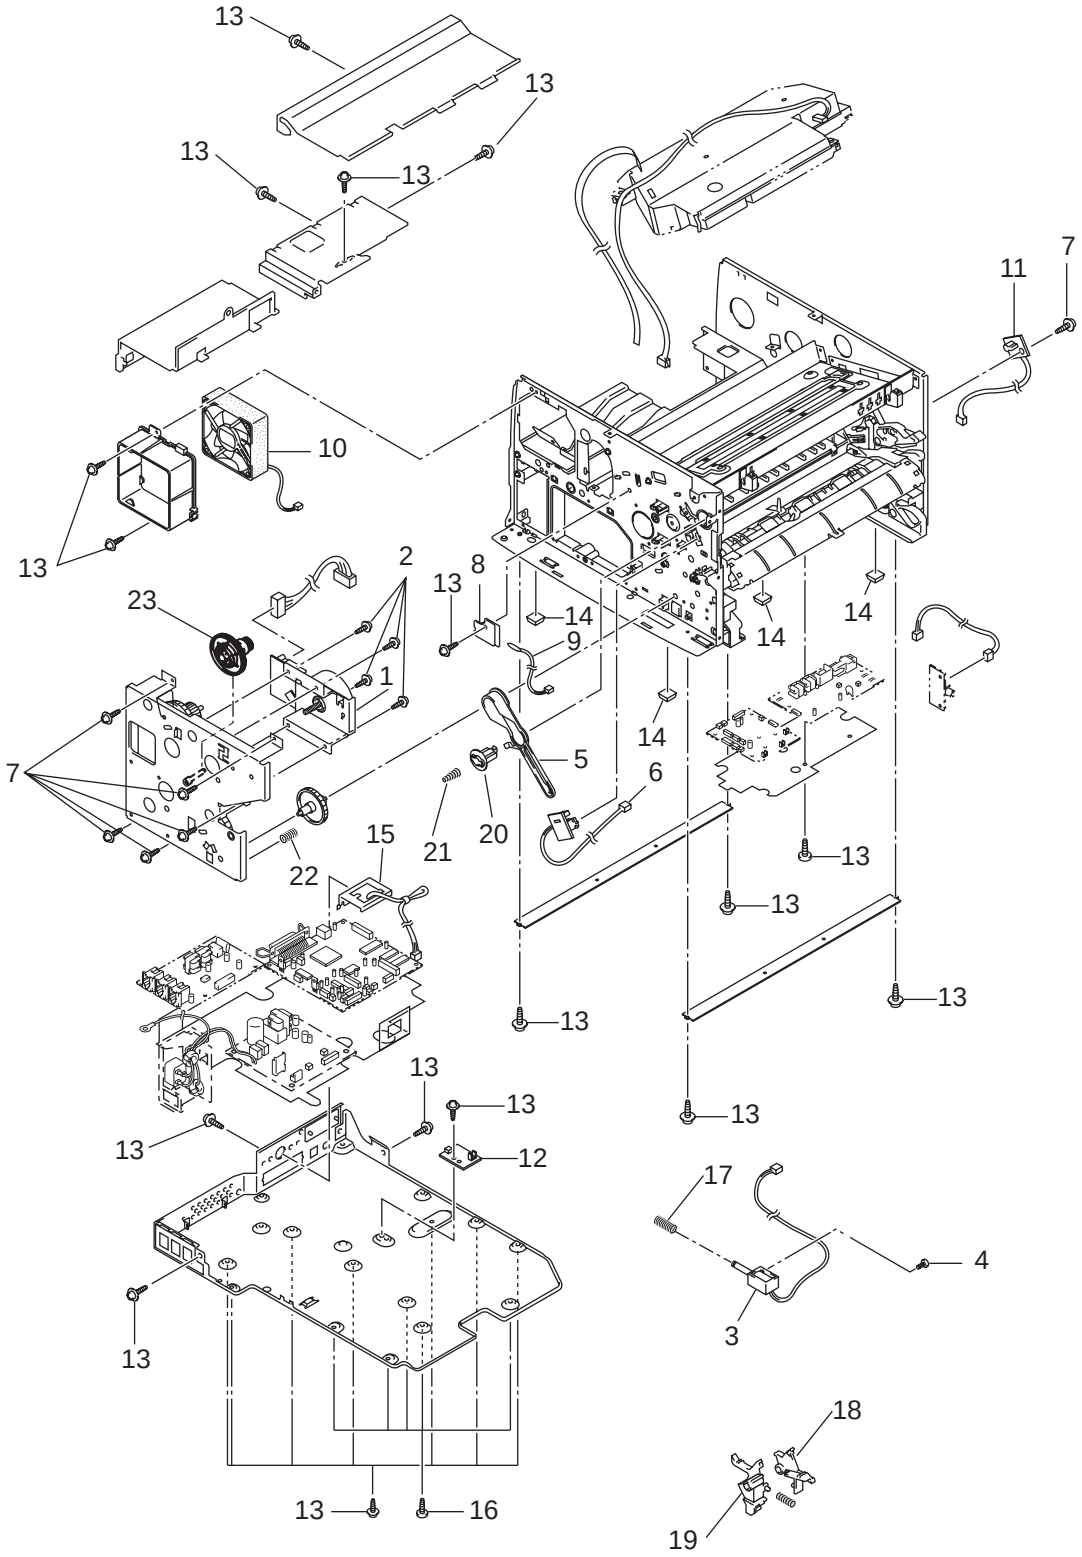

3. Models in this parts reference list have the letters “New” at the end of their name. However, this "New" does not appear after a model name when it is written on the control panel of the actual product. The difference between the new and old model can be determined by the character “N” written on the Rating Label affixed to the back of the product. New models have the "N", while old models do not. The image at the right shows the label of a new model. Therefore, if there is the character “N” in the label, use this parts reference list.

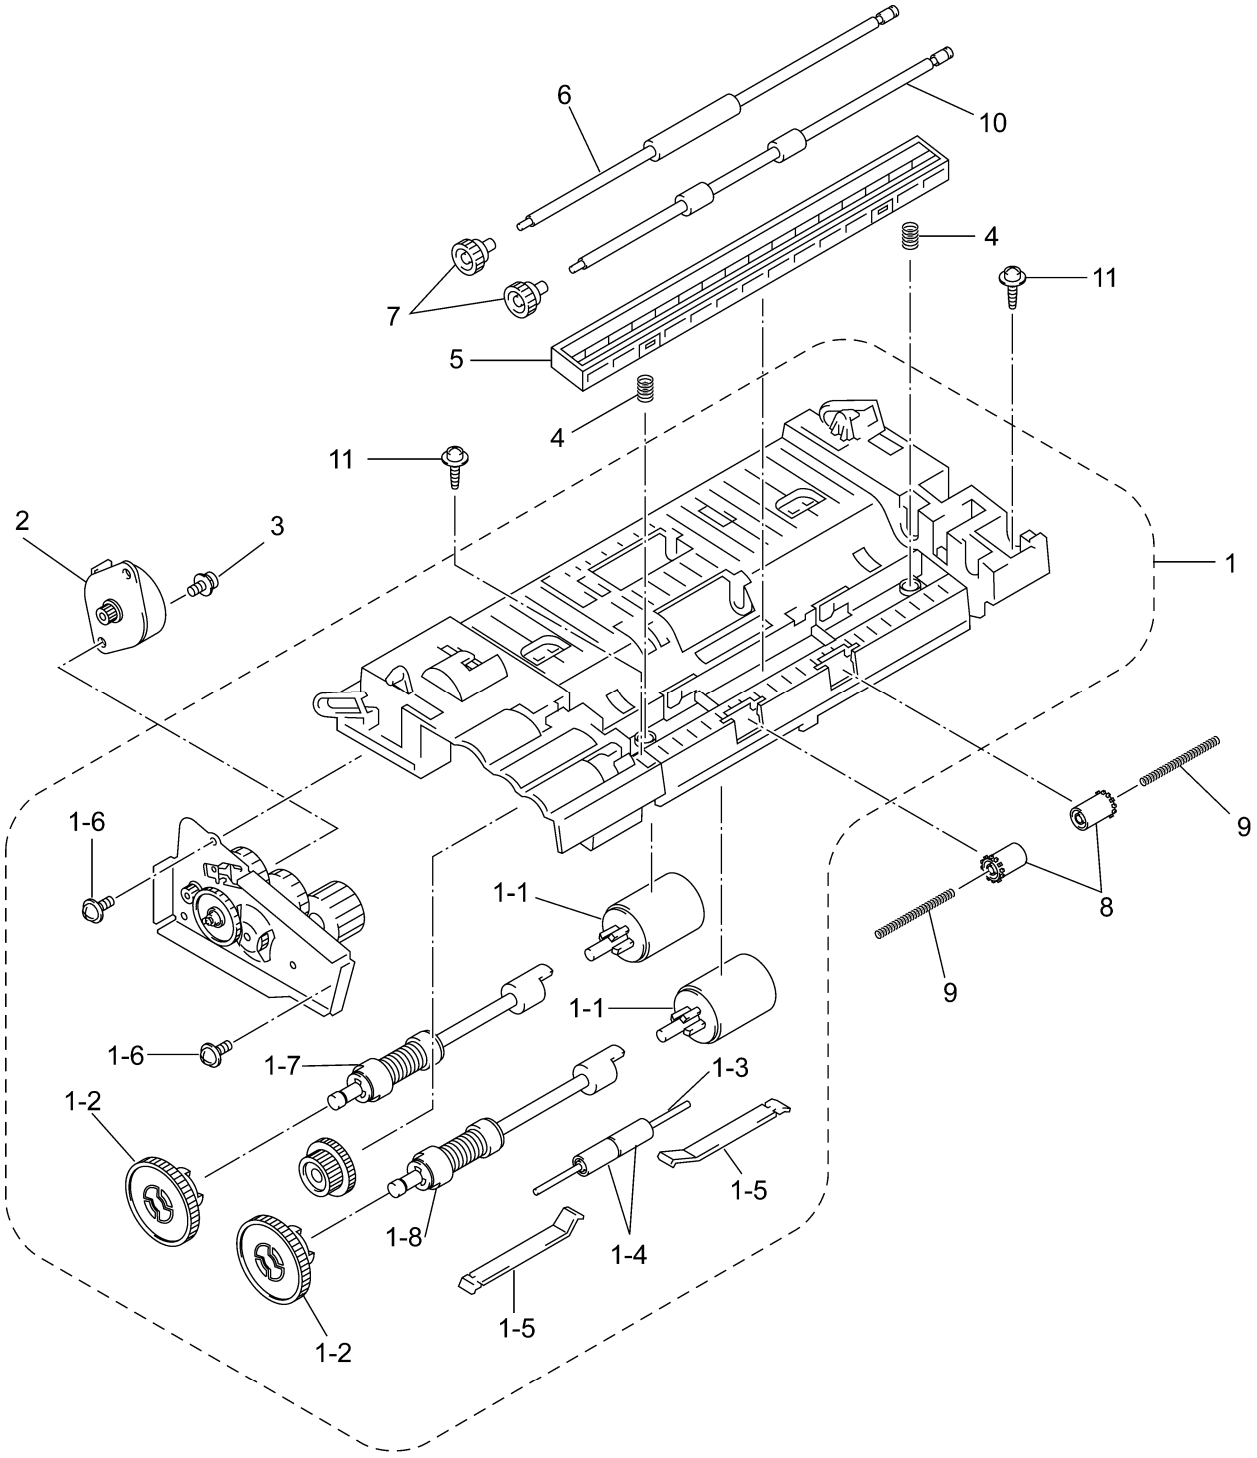

4. Parts change will be informed by the technical information.
